Summary

Frontend Developer with 4+ years of experience building scalable, high-performance, and accessible web applications using React, TypeScript, and modern UI frameworks. Proven track record of improving UI performance, building reusable component systems, and delivering pixel-perfect interfaces in Agile environments. Strong collaborator with backend and design teams, focused on building clean, maintainable, and business-driven frontend solutions.

Technical Skills

Frontend Core

- React, TypeScript, JavaScript (ES6+)
- HTML5, CSS3, Responsive Design

UI Frameworks

- Material UI, Ant Design, Mantine, Shadcn/UI
- Tailwind CSS, Bootstrap

CMS & Email

- WordPress Theme Development
- MJML Email Templates

Tools & Platforms

- Git, GitHub, GitLab, Bitbucket
- Jira, Figma, Slack, Mattermost
- Netlify, Vercel, Heroku

Professional Experience

o2h Technology

(4+ Years)

Frontend Developer

Apr 2025 - Present

- Developed and maintained scalable, accessible web applications using React, TypeScript, and Material UI.
- Built modular and reusable UI components to improve development efficiency across multiple modules.
- Collaborated with backend and design teams to deliver responsive, pixel-perfect user interfaces.
- Improved UI performance by 25% through code optimization, lazy loading, and reducing DOM reflows.

Senior Associate HTML Developer - II

Apr 2024 - Mar 2025

- Migrated legacy HTML/CSS applications into modern React architecture with Material UI.
- Developed reusable UI components and layout systems for scalable frontend development.
- Built MJML-based email templates with 100% cross-client compatibility.
- Mentored junior developers on frontend best practices and accessibility standards.

Associate HTML Developer II

Apr 2023 - Mar 2024

Dejavu Learning (3 Month Internship)	<ul style="list-style-type: none"> Converted static layouts into responsive, mobile-first UI using CSS Grid and Flexbox. Implemented semantic HTML and ARIA roles to improve accessibility compliance. Designed and implemented custom WordPress themes optimized for performance and SEO. Worked with cross-functional teams to deliver projects under Agile sprints using Jira.
	HTML Trainee Jan 2022 - Mar 2023 <ul style="list-style-type: none"> Developed responsive layouts using HTML5, CSS3, and Bootstrap for client projects. Learned modern development workflows including Git version control and code review processes. Assisted in building email templates using MJML, ensuring compatibility across devices.
	Frontend Web Developer Intern Oct 2021 - Dec 2021 <ul style="list-style-type: none"> Redesigned the landing page using Bootstrap 5 and improved load time by 30%. Implemented custom UI elements (radio buttons, checkboxes) with jQuery for better UX. Used Figma prototypes to design and implement responsive mobile workflows.

Projects	
The Github API Source Code Demo Link	Tech Stack: HTML5, CSS3, Bootstrap, Javascript, Ajax, Github API <ul style="list-style-type: none"> Built a responsive web app that fetches live GitHub user data using REST APIs. Implemented repository listing, stats dashboard, and profile preview. Optimized UI for mobile and desktop.
